- Agile Methodologies (Scrum, Agile, Design Thinking)
- Teamwork
- Proactivity
- Results-oriented
- Analytical skills

About Me

Passionate about programming and committed to teamwork collaboration. With experience in software development and web solutions, I enjoy contributing technical and creative skills to achieve common goals.

Work Experience

Programming Teacher

Ministry of Education of the City of Buenos Aires - (2022 - 2024)

Managed several groups of high school students over the last 3 years, responsible for creating educational materials and reviewing their code. Taught languages including HTML, CSS, JS, and C#.

Freelancer

C# .NET - (2022 - 2023)

I worked on the development of a web application using C# and .NET, where I was responsible for backend development. We implemented the MVC pattern and utilized databases, repositories, and Microsoft Azure for project management.

Freelancer

Javascript - (2021 - 2022)

- Designed and developed attractive user interfaces.
- Worked on integrating external APIs using JavaScript.
- Improved website interactivity with JavaScript, including animations and form validations.
